### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The claim is allowable because the prior art fails to teach a shim for adjusting the clearance between a guide and an upper jaw as set forth in claims 1 and 12.

LaBounty et al. teaches a lower jaw 12, an upper jaw 14, pivot means 16, means for attachment to the boom structure of the excavator 18, a first mounting plate (26 and 80), a second mounting plate 28, guides (68 and 95) and means for attaching the guide/bolts 72. However, LaBounty et al. doesn't need the use of a shim for adjusting the clearance because when the guide becomes worn the bolt 78 is turned for adjusting the clearance (see col. 5, lines 51-57).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
